

# 2020: THE YEAR OF THE NURSE AND MIDWIFE

## ***What is a nurse?***

A nurse is a healer. A nurturer. One who is there to make sure the patient is as comfortable as possible, and to respond to immediate needs. He/she is responsible for the patient experience, and aiding the doctor for a specific agenda.

A nurse is...a friend.

Born in 1820, Florence Nightingale claimed to be born with the God-given calling of nursing, and soon became the founder of modern nursing. Honoring the anniversary of her birth, the World Health Organization has designated 2020 as the year of the nurse and midwife as a celebration of her contributions.

**2020**  
**INTERNATIONAL YEAR**  
**OF THE NURSE AND**  
**THE MIDWIFE**

## According to the World Health Organization:

50%

Nurses and midwives account for nearly 50% of the global health workforce.

80%

Midwifery could avert over 80% of all maternal deaths, stillbirths and neonatal deaths.

9M

The world needs 9 million more nurses and midwives if it is to achieve universal health coverage by 2030.

“

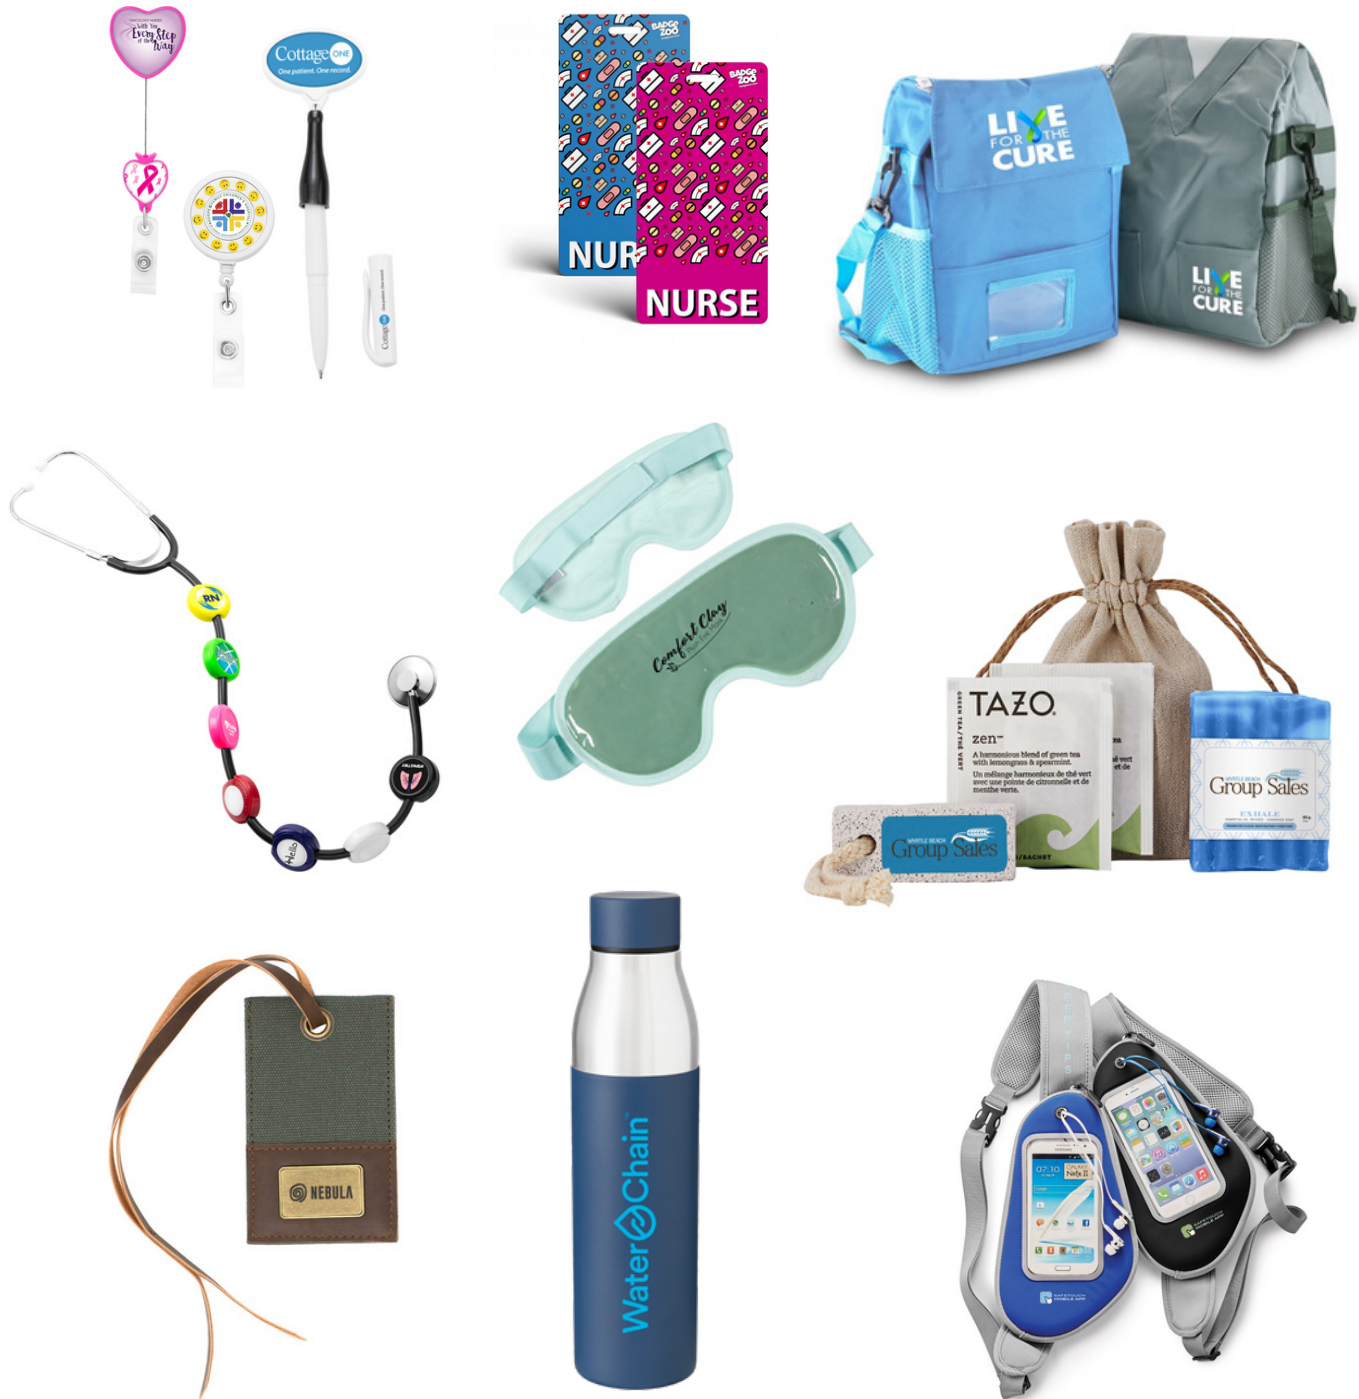

*I think one's feelings waste themselves in words, they ought all to be distilled into actions and into actions which bring results.*

*~ Florence Nightingale*
